

Downloading Library eBooks - Sony eReader

You need to install and activate Adobe Digital Editions first. You have not done so please see instructions for “Downloading Adobe Digital Editions” BEFORE you proceed.

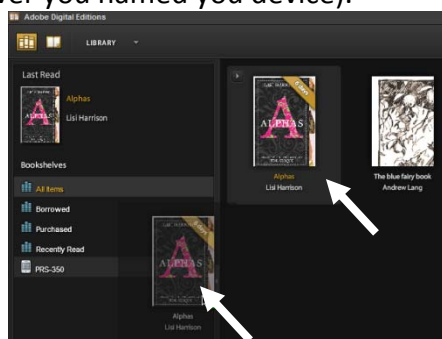

1. Connect your Sony eReader into your computer using a USB cord.
2. On your computer, open up your local libraries website.
Find an eBook you would like to check out. Follow your libraries steps in checking out.
Once you have checked out the book you should see a page similar to this to download the book.
3. Click the download button.

4. A window will open asking if you want to open or save. Click open.

5. Digital Editions will open and the file will download. Once the file has downloaded you will see the book cover in your “Library”. Click and Drag the book to “PRS-350” (Or whatever you named your device).

6. Close the window and eject the Sony eReader from your computer.
7. On your Sony eReader. The eBook will load onto your eReader. You will then see the eBook listed in your books. Tap to open.
